SUGGESTIONS
APPLICATION

The panel is laid only in one direction as the fluidity of the lines remains uncompromized. The tile can be laid out for walls.

The panel is suitable for internal and external areas including the wet areas. The tile can be used for Interior Wall, Shower Wall, Exterior Wall, Fireplace Backsplash.

Lighting is a key component. It significantly enhances the design. A great lighting needs to wash down or across the surface, depending on wether the grains run horizontally or vertically.
